Level I Certified Harmonic Trader Education Program

The Official Harmonic Trading Course

By Scott Carney

Dear Harmonic Trader,

I am pleased to announce that I am now offering a CERTIFIED Harmonic Trading™ Education Program. I have developed an official curriculum and I am presenting this course to teach the entire harmonic framework. This material is the foundation course that comprises the Certified Harmonic Trader Program Level I program. The Level II Advanced Program will be released soon and all individuals must pass Level I to qualify.

This program is currently being translated and presented around the world in multiple languages in a standardized format. The program will be distributed through certified education partners that work in direct relationship with me exclusively. Therefore, this curriculum represents the industry standard for anyone who wants to learn the harmonic pattern framework and those that want to teach others going forward. Simply stated, anyone who is not a certified Harmonic Trader does not represent the values or abilities required to master this methodology.

The purpose of the curriculum is to teach the required harmonic pattern measurements as well as the essential execution and management framework that facilitate the methodology. The entire Harmonic Trading process has been distilled into a standardized curriculum that constitutes the step-by-step plan to navigate the financial markets from this "natural cyclical" approach.

Copyright Scott M. Carney 2018

Although the primary goal of the program is to master the basic harmonic measurement framework, these strategies are designed to teach an entire skill trading set that can be applied as a coherent start-to-finish methodology. Regardless of your current knowledge, every student will become a certified Harmonic Trader after passing the course, learn professional strategies and distinguish their abilities with a knowledge-level unparalleled in the industry.

Most of all, I seek to promote a greater connection of knowledgeable Harmonic Traders which will ultimately foster a professional community of excellence. I am teaching many of these strategies from a simpler perspective, distilled in a manner that emphasizes only the clearest opportunities with reasonable expectations that helps traders navigate any market on any timeframe. Quite simply, this is my best educational program that I have ever created. I look forward to connecting with you and building a lasting network of successful certified Harmonic Traders who represent the brightest and best in the industry. Please contact me directly at HarmonicTrader@HarmonicTrader.com with questions.

Great Harmonic Trading to You,

Scott M. Carney

Level I Certified Education Course Schedule

The Official Harmonic Trading Curriculum
Developed by Scott M. Carney

Session 1: Harmonic Trading Introduction

- **What is Harmonic Trading?**
- **Harmonic Trading Ratios**
- **AB=CD Patterns**

In this webinar, Scott will explain the essential principles of Harmonic Trading. He will present the primary foundation of the approach to explain why Harmonic Trading works in the financial markets! This introduction is an essential beginning to advance your Harmonic Trading. The insights and information shared in this presentation establish the proper mental perspective to apply these strategies to real trade opportunities. Scott will provide a thorough explanation of the AB=CD pattern and why it works. The AB=CD Pattern is the primary structure within the Harmonic Trading Trade approach. Although this structure has been analyzed in previous efforts, Scott is most responsible for advancing its application in his 1998 book "The Harmonic Trader," and even at greater length in his "Harmonic Trading: Volume One" (2004), "Two" (2007) and Three (2016)."

Session 2: Harmonic Trading Pattern Identification: Part I

- M&W Pattern Types Introduction
- Retracement Patterns – Gartley, Bat Pattern & Alternate Bat Pattern
- Extension Patterns - Crab Pattern, Deep Crab Pattern & Butterfly Pattern

During this lesson he will demonstrate how to properly identify harmonic patterns, offer a thorough explanation of the rules and outline how to determine the best situations. As creator of all harmonic patterns, Scott's definitions are the industry standard because they define the natural cyclical relationships that validate trading opportunities. The ideal alignment of pattern measurements including Market Sineature and Fibonacci ratios are proprietary discoveries that has been presented into an effective arsenal of trading strategies.

Session 3: Harmonic Trading Pattern Identification: Part II

- Non-M&W Pattern Types Introduction
- Shark Pattern
- 5-0 Pattern

Non-M&W Pattern types created by Scott Carney such as the Shark and the 5-0. He will explain the elements that define these structural opportunities and how they can be employed to define precise opportunities, especially in specific technical situations. He will explain the price parameters that comprise the 5-0 and the Shark, their stop loss limits and the important management strategies that optimize the effectiveness of these patterns. As the creator of the Shark and 5-0 patterns, Scott will share an unparalleled insight unlike anyone else and how to maximize these opportunities.

Session 4: Harmonic Trading Execution

- Introduction to the "Natural Harmonic Reaction"
- Principles of Execution Confirmation
- Timeframes
- Indicator Confirmation

We will examine the critical aspects of Harmonic Trading Execution strategies. We will focus on concepts such as the Potential Reversal Zone (PRZ), the Terminal Price Bar (TBar) and other confirmation signals to pinpoint executions of harmonic patterns. Scott will clarify why these strategies are critical in identifying which patterns have the greatest potential for profit and which price structures should be avoided.

Harmonic Trading execution is an extremely critical step in the decision-making process. You will learn how to optimize trade entries, reduce risk and maximize a pattern's profit potential! We will analyze specific strategies such as price action in the Potential Reversal Zone (PRZ), Trend Channels and the importance of a new concept Scott will introduce called the Permissible Execution Zone ™ (PEZ). We will analyze trading opportunities within the context of multiple timeframes and integrate a foundation of indicator confirmation strategies. This session will be a critical discussion as we implement harmonic pattern identification strategies within a defined trading plan in a very specific way.

Copyright Scott M. Carney 2018

Session 5: Harmonic Trading Management

- Introduction of Harmonic Trading Management
- Principles of Management - Harmonic Trading Reversal Types and Timeframes
- The Harmonic Trading Management Model

The Harmonic Trading Management System explains how to measure profit targets, interpret price action for maximum returns and establishes the proper expectations to know how to handle properly the completion of a trade. Scott presents his best management strategies, including Harmonic Trading Reversal Types with advanced indicator strategies, including RSI BAMM™. This session will bring it all together, walk you through real trades and solidify the entire Harmonic Trading Process.

Session 5: Consultation with Scott Carney
(TBD by Class Attendees)

As a part of the certification program, you will have the ability to consult directly with Scott via email to ask questions and connect directly with the creator of harmonic patterns at the end of the program for a 30-minute intensive session. Please contact us directly at HarmonicTrader@HarmonicTrader.com for more information and to schedule appointments.

Level I Certification Exam

To earn the Level I course certification, each attendee must pass a 100-question exam that tests knowledge of the curriculum. The questions are designed to challenge each student's comprehension to ensure that they fully understand the Harmonic Trading measurement framework. From harmonic pattern identification to trade execution and management, this exam demands that the material can be fully understood before earning the distinction of Level I certification.

(Test TBD by Class Attendees)

30-Day Harmonic Trader Bootcamp Course Calendar

- The entire course will be available online through the HarmonicTrader.com website and each student will be able to access the materials on a permanent basis beyond the completion of the course.
- The course is designed as a 30-day program and follows along with a calendar that can be started when the student is ready. Although not everyone has enough time to complete the course on a 30-day schedule, the succession of webinars and presentations are designed to build upon concepts to reinforce strategies and maximize comprehension.
- All students will have up to 90 days to take the final exam. Each student will have two attempts to pass the exam within 90-days. If the student does not pass within two attempts, they must wait another 90-days before retaking the test.
